

Hisaar360 Hospital — QA Test Cases (Manual)

Field	Value
Product	Hisaar360 Hospital Management System
Document	Manual QA Workbook
Edition	Hospital (full modules ON)
Version	1.0
Last updated	2026-09-22
How to use	Har case me Pass / Fail / Notes fill karo. Role change ke baad re-login lazmi.

TC columns: TC-ID · Preconditions · Steps · Expected · Result (Pass/Fail) · Notes

Ch 0 — Test preparation

0.1 Environment

Item	Local default
Frontend	http://localhost:4200
API	http://localhost:3001/api/v1
Auth	Hisaar360 Central Auth / local login
Modules	pharmacy + laboratory + ward + clinical = ON

0.2 Fixtures (create once)

- ☐ 1 hospital with all modules enabled
- ☐ 1 adult patient (mobile number known)
- ☐ 1 pediatric patient (for Peds specialty)
- ☐ 1 ward + at least 1 free bed
- ☐ Pharmacy store + **open register**
- ☐ Lab catalog: at least 2 tests with prices
- ☐ Medicines in stock for Rx issue

0.3 QA users (system roles)

Role	Purpose
Hospital Admin	Setup, users, roles, modules
Receptionist	OPD patients + appointments
Doctor (General Medicine)	OPD Rx + admit recommend
Doctor (OBGYN)	Specialty smoke
Doctor (Pediatrics)	Specialty smoke
Doctor (Cardiology)	Specialty smoke
Pharmacy	Rx issue + ward medicine issue
Lab Receptionist	Create lab order

Lab Technician	Sample + results
Pathologist	Verify results
Ward Receptionist	Admit / bed / discharge desk
Ward Admin	Roster, beds, assignments
Nurse	Vitals, MAR, care
Ward Attendant	Tasks only

Rule: Roles/permissions edit ke baad user **logout** → **login**.

Ch 1 — Role action matrix

Har role ke liye: pehle **positive**, phir **negative** (URL steal / wrong menu).

TC-RBAC-001 — Receptionist allowed actions

Preconditions	Login as Receptionist
Steps	1. Open left menu. 2. Go Patients → All Patients. 3. Open Appointments.
Expected	Patients + Appointments visible and usable. No Ward & Nursing full ops, no Laboratory menu, no Consultation write.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-002 — Receptionist blocked from Ward / Lab / Rx write

Preconditions	Login as Receptionist
Steps	1. Manually open /ward/admissions. 2. Open /laboratory/create-order. 3. Open /prescriptions.
Expected	Redirect or access denied for ward/lab/Rx write shells (per permissions). Cannot create lab order or write prescription.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-003 — Doctor allowed actions

Preconditions	Login as Doctor
Steps	1. Open /prescriptions. 2. Open appointments (own). 3. Open patient and start consultation.
Expected	Consultation UI loads; can save prescription.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-004 — Doctor cannot use Pharmacy POS sell as primary role

--	--

Preconditions	Login as Doctor (no pharmacy sell perms)
Steps	Open /pharmacy/pos.
Expected	Blocked or no sell capability without pharmacy perms/register.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-005 — Pharmacy allowed actions

Preconditions	Login as Pharmacy ; register open
Steps	1. Open /pharmacy. 2. Open POS.
Expected	Pending prescriptions list + POS usable. No Appointments write. No Rx create.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-006 — Ward Admin menu (no Lab / OPD shells)

Preconditions	Login as Ward Admin (or Ward Supervisor alias)
Steps	1. Check left menu. 2. Confirm Ward & Nursing present. 3. Confirm Laboratory / Consultation menus hidden.
Expected	Ward menus only for ops; Laboratory and OPD Consultation not in sidebar.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-007 — Ward Admin URL cannot steal Lab page

Preconditions	Login as Ward Admin
Steps	Manually change URL to /laboratory/create-order. Try patient search if page loads.
Expected	Redirect away from lab shell. Lab create API must be 403 if called.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-008 — Nurse allowed care actions

Preconditions	Login as Nurse ; at least one assigned/admitted patient
Steps	Open /ward/my-work → patient detail → vitals / MAR.
Expected	Can record vitals and MAR dose. No Lab dashboard menu.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-009 — Ward Attendant tasks only

Preconditions	Login as Ward Attendant
Steps	1. Land on /ward/tasks. 2. Try /ward/patient-list or clinical chart URL.
Expected	Tasks visible. Clinical chart / billing not available.
Result	☐ Pass ☐ Fail
Notes	

TC-RBAC-010 — Lab roles stay in Laboratory

Preconditions	Login as Lab Receptionist
Steps	Open Laboratory menu → Create Order / Dashboard.
Expected	Lab screens work. Ward care and Pharmacy POS not primary menus.
Result	☐ Pass ☐ Fail
Notes	

Ch 2 — OPD → Prescription → Pharmacy issue

Flow: Receptionist → Doctor → Pharmacy

TC-OPD-001 — Register / find patient (Receptionist)

Login as	Receptionist
Steps	1. Patients → Add or search by mobile. 2. Save/open patient.
Expected	Patient profile with PAT-ID and mobile.
Result	☐ Pass ☐ Fail
Notes	

TC-OPD-002 — Book appointment (Receptionist)

Login as	Receptionist
Steps	Appointments → create for patient + doctor + today.
Expected	Appointment listed for doctor.
Result	☐ Pass ☐ Fail
Notes	

TC-OPD-003 — Write prescription (Doctor)

Login as	Doctor (General Medicine)
Steps	1. Open /prescriptions. 2. Select patient. 3. Add diagnosis + at least 1 medicine (dose/freq). 4. Save.
Expected	Prescription saved; appears under Created Prescriptions.

Result	☐ Pass ☐ Fail
Notes	

TC-PHARM-001 — Issue medicine from prescription (Pharmacy)

Login as	Pharmacy
Preconditions	TC-OPD-003 done; register open; stock available
Steps	1. Open /pharmacy. 2. Find pending Rx. 3. Click Issue → POS opens with prescriptionId. 4. Complete sale / payment.
Expected	Sale created linked to prescription; stock reduced; Rx no longer pending (or marked issued).
Result	☐ Pass ☐ Fail
Notes	

TC-PHARM-002 — Cannot issue without stock / closed register

Login as	Pharmacy
Steps	Try POS sale with closed register OR zero stock medicine.
Expected	Clear error; sale not completed.
Result	☐ Pass ☐ Fail
Notes	

TC-OPD-004 — End-to-end OPD smoke (all three logins)

Steps	Run TC-OPD-001 → 002 → 003 → TC-PHARM-001 in order with re-login each role.
Expected	Full chain works without data loss.
Result	☐ Pass ☐ Fail
Notes	

Ch 3 — Laboratory lifecycle

Flow: Lab Receptionist → Lab Technician → Pathologist

TC-LAB-001 — Create lab order

Login as	Lab Receptionist (or user with lab_orders.create)
Steps	1. /laboratory/create-order. 2. Search patient mobile. 3. Select patient. 4. Add ≥1 test. 5. Priority Normal. 6. Create (pay now optional).
Expected	Order created with order ID; appears on Lab Dashboard.
Result	☐ Pass ☐ Fail
Notes	

TC-LAB-002 — Collect sample

Login as	Lab Technician
Steps	Open order detail → Collect sample.
Expected	Sample status updated; ready for results.
Result	☐ Pass ☐ Fail
Notes	

TC-LAB-003 — Enter results

Login as	Lab Technician
Steps	Enter result values for each item → save.
Expected	Results saved; awaiting verification if required.
Result	☐ Pass ☐ Fail
Notes	

TC-LAB-004 — Verify results (Pathologist)

Login as	Pathologist
Steps	Open order → Verify item(s).
Expected	Status verified; report ready.
Result	☐ Pass ☐ Fail
Notes	

TC-LAB-005 — Created reports / print

Login as	Lab Receptionist or Technician
Steps	Open /laboratory/created-reports → open/print report. Print invoice if payment collected.
Expected	Report printable; patient/tests/results correct.
Result	☐ Pass ☐ Fail
Notes	

TC-LAB-006 — Lab E2E chain

Steps	TC-LAB-001 → 002 → 003 → 004 → 005
Expected	Complete lifecycle without stuck status.
Result	☐ Pass ☐ Fail
Notes	

TC-LAB-007 — Ward role cannot create via Lab UI

Login as	Ward Admin
Steps	URL /laboratory/create-order.
Expected	Blocked (same as TC-RBAC-007). Ward lab orders (if any) go via Ward chart / ward orders, not Lab Dashboard.
Result	☐ Pass ☐ Fail
Notes	

Ch 4 — Ward: admission → nurse care → discharge

Flow: Doctor → Ward Receptionist → Ward Admin → Nurse → (Pharmacy optional) → Discharge desk → Attendant check

TC-WARD-001 — Doctor recommends admission

Login as	Doctor
Steps	From clinical/ward recommend admission for patient (reason + preferred ward if asked).
Expected	Recommendation created / visible to ward desk.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-002 — Ward Receptionist admits + bed

Login as	Ward Receptionist
Steps	1. /ward/admissions. 2. Admit patient. 3. Allot bed.
Expected	Active admission; bed occupied; patient on ward list.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-003 — Ward Admin assignment / home

Login as	Ward Admin
Steps	Open Ward Home / assignments → assign nurse to patient or confirm bed board.
Expected	Assignment saved; nurse can see patient in My Work (if assignment model used).
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-004 — Nurse records vitals

Login as	Nurse
Steps	/ward/my-work → patient → Vitals → enter BP/HR/Temp → save.

Expected	Vitals appear on chart timeline.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-005 — Nurse MAR dose

Login as	Nurse
Preconditions	Medicine order / MAR entry exists
Steps	Open MAR → record dose given.
Expected	Dose logged with time/user. (This is NOT pharmacy POS dispense.)
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-006 — Nurse drip / I-O smoke

Login as	Nurse
Steps	Add one drip action OR one I/O entry.
Expected	Entry saved on chart.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-007 — Shift handover note

Login as	Nurse
Steps	Shift handover → add note for next shift.
Expected	Handover visible to next nurse/admin.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-008 — Ward medicine request → Pharmacy issue (optional)

Login as	Nurse then Pharmacy
Steps	1. Nurse creates medicine request. 2. Re-login Pharmacy → issue request.
Expected	Request issued; ward billing/settlement updated if applicable.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-009 — Discharge readiness + discharge

--	--

Login as	Ward Receptionist (or Admin with discharge rights)
Steps	1. Open patient discharge tab. 2. Complete bill/payment if required. 3. Discharge.
Expected	Admission closed; bed free; discharge statement printable.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-010 — Full IPD E2E

Steps	TC-WARD-001 → 002 → 003 → 004 → 005 → 009 (006–008 optional)
Expected	Admit to discharge completes; bed freed.
Result	☐ Pass ☐ Fail
Notes	

TC-WARD-011 — Attendant cannot open clinical chart

Login as	Ward Attendant
Steps	Stay on tasks; try patient clinical URL.
Expected	No clinical data access.
Result	☐ Pass ☐ Fail
Notes	

Ch 5 — Specialty-wise doctor smoke

Goal: Har specialty pe consult open + save. Full clinical audit nahi — smoke OK.

Per specialty mini steps:

1. Login as Doctor with that specialty (catalog / profile).
2. Open `/prescriptions` → select patient.
3. Confirm specialty panel title is correct.
4. Fill 2–3 fields → save.
5. Confirm in Created Prescriptions.

P0 specialties (must)

TC-ID	Specialty	Panel check	Result	Notes
TC-SPEC-GM-01	General Medicine	General Medicine / engine card	☐ Pass ☐ Fail	
TC-SPEC-OBGYN-01	Obstetrics & Gynaecology	Gynae / OBGYN UI (NOT Oncology)	☐ Pass ☐ Fail	
TC-SPEC-PEDS-01	Pediatrics	Pediatrics panel	☐ Pass ☐ Fail	Use pediatric patient
TC-SPEC-CARD-01	Cardiology	Cardiology	☐ Pass ☐ Fail	

TC-SPEC-ORTHO-01	Orthopaedics	Orthopaedics	☐ Pass ☐ Fail	
TC-SPEC-ONCO-01	Oncology	Oncology	☐ Pass ☐ Fail	
TC-SPEC-PHYSIO-01	Physiotherapy	Physio plan UI	☐ Pass ☐ Fail	
TC-SPEC-EYE-01	Ophthalmology	Eye / Ophthal	☐ Pass ☐ Fail	
TC-SPEC-DENTAL-01	Dental	Dental	☐ Pass ☐ Fail	
TC-SPEC-ER-01	Emergency	Emergency	☐ Pass ☐ Fail	

P1 specialties (remaining)

TC-ID	Specialty	Result	Notes
TC-SPEC-PULM-01	Pulmonology	☐ Pass ☐ Fail	
TC-SPEC-GASTRO-01	Gastroenterology	☐ Pass ☐ Fail	
TC-SPEC-HEP-01	Hepatology	☐ Pass ☐ Fail	
TC-SPEC-GSURG-01	General Surgery	☐ Pass ☐ Fail	
TC-SPEC-NEURO-01	Neurology	☐ Pass ☐ Fail	
TC-SPEC-NSURG-01	Neurosurgery	☐ Pass ☐ Fail	
TC-SPEC-NEO-01	Neonatology	☐ Pass ☐ Fail	
TC-SPEC-NEPH-01	Nephrology	☐ Pass ☐ Fail	
TC-SPEC-URO-01	Urology	☐ Pass ☐ Fail	
TC-SPEC-ENDO-01	Endocrinology	☐ Pass ☐ Fail	
TC-SPEC-DERM-01	Dermatology	☐ Pass ☐ Fail	
TC-SPEC-ENT-01	ENT	☐ Pass ☐ Fail	
TC-SPEC-RHEUM-01	Rheumatology	☐ Pass ☐ Fail	
TC-SPEC-PSY-01	Psychiatry	☐ Pass ☐ Fail	
TC-SPEC-ID-01	Infectious Disease	☐ Pass ☐ Fail	
TC-SPEC-ANES-01	Anesthesiology	☐ Pass ☐ Fail	
TC-SPEC-OTHER-01	Other	☐ Pass ☐ Fail	

TC-SPEC-REGRESS-01 — Gyne must not show as Oncology

Login as	Doctor with Gynecologic Oncology / OBGYN mapping
Steps	Open consult for OBGYN patient/specialty.
Expected	Panel is OBGYN/Gynae — not Oncology-only template title.

Result	☐ Pass ☐ Fail
Notes	

Ch 6 — Cross-cutting negatives & smoke

TC-MOD-001 — Laboratory module OFF

Preconditions	Hospital Admin disables laboratory module; re-login tester
Steps	Open menu; try /laboratory.
Expected	Menu hidden; route blocked; API 403 MODULE_DISABLED.
Result	☐ Pass ☐ Fail
Notes	Re-enable after test

TC-MOD-002 — Ward module OFF

Steps	Disable ward → re-login → try /ward/home.
Expected	Blocked.
Result	☐ Pass ☐ Fail
Notes	

TC-MOD-003 — Pharmacy module OFF

Steps	Disable pharmacy → re-login → try /pharmacy.
Expected	Blocked.
Result	☐ Pass ☐ Fail
Notes	

TC-ROLE-001 — Edit system role → becomes hospital custom

Login as	Hospital Admin
Steps	Roles → open system role (e.g. Nurse) → change one permission → Save.
Expected	Badge becomes Custom; toast says converted for this hospital; sync no longer overwrites.
Result	☐ Pass ☐ Fail
Notes	

TC-PRINT-001 — Print spot-check

Steps	Print one Rx, one lab report/invoice, one discharge statement.
Expected	Readable; hospital name/patient correct; no blank critical fields.
Result	☐ Pass ☐ Fail

Notes	
-------	--

TC-AUTH-001 — Re-login after permission sync

Steps	Admin syncs roles / changes perms → user refreshes without logout → then logout/login.
Expected	After re-login, new permissions apply (menus match).
Result	☐ Pass ☐ Fail
Notes	

Master E2E scripts (run in order)

Script A — OPD day

- 1. Receptionist: patient + appointment
- 2. Doctor: prescription
- 3. Pharmacy: issue

Mark: TC-OPD-004

Script B — Lab day

- 1. Lab Receptionist: create order
- 2. Technician: sample + results
- 3. Pathologist: verify
- 4. Print report

Mark: TC-LAB-006

Script C — IPD day

- 1. Doctor: recommend admit
- 2. Ward Receptionist: admit + bed
- 3. Ward Admin: assign
- 4. Nurse: vitals + MAR
- 5. Discharge desk: discharge

Mark: TC-WARD-010
